

Katandra School is going mobile!

Konnective is a mobile app solution that will allow us to communicate with you, our parents, straight to your smartphone. We will be sending updates, reminders, news and more so that you can be even more connected with your children’s activities and events at the school. Using the Konnective app, you can add events directly to your phone's calendar, set reminders for things you need to do and receive important alerts as soon as they are released.

The Katandra School App on Konnective is now up and running. If you would like to have access to the App on your smart phone there are two ways to subscribe. You can provide your name and email address to the school by completing the reply slip below and you will receive an email invitation to join Konnective. Or, once the Katandra School App is launched, you can download the App on your smartphone and set up your own account. If you would prefer not to subscribe at all please tick the “Not at present” box on the form below

For parents that don’t have a smartphone and would like to access the Katandra School App, it will be available to view via www.konnective.com.au

If you require any further information or have any queries please contact the School Office.
